

5G: a major enabler for the industry of the future

Philippe Lucas, Senior Vice President Strategy, Architecture & Standardisation, Orange

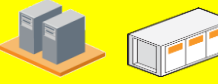

5G according to Orange

5G target architecture

P2P comm

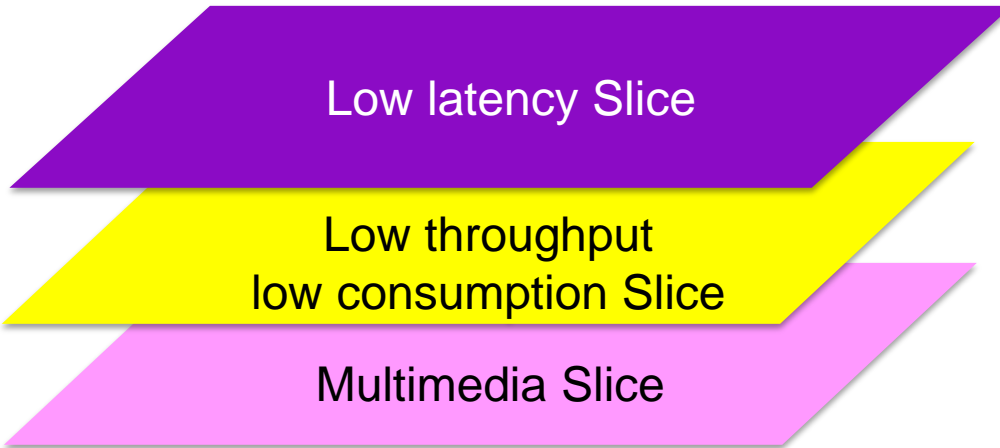

IoT, Smart Home

Critical apps

vRRH

Virtual Network Functions

Access vRAN, vBBU

Packet Core vEPC

Data Network vIMS

Physical and Virtual Infrastructure

Compute

Storage

Network

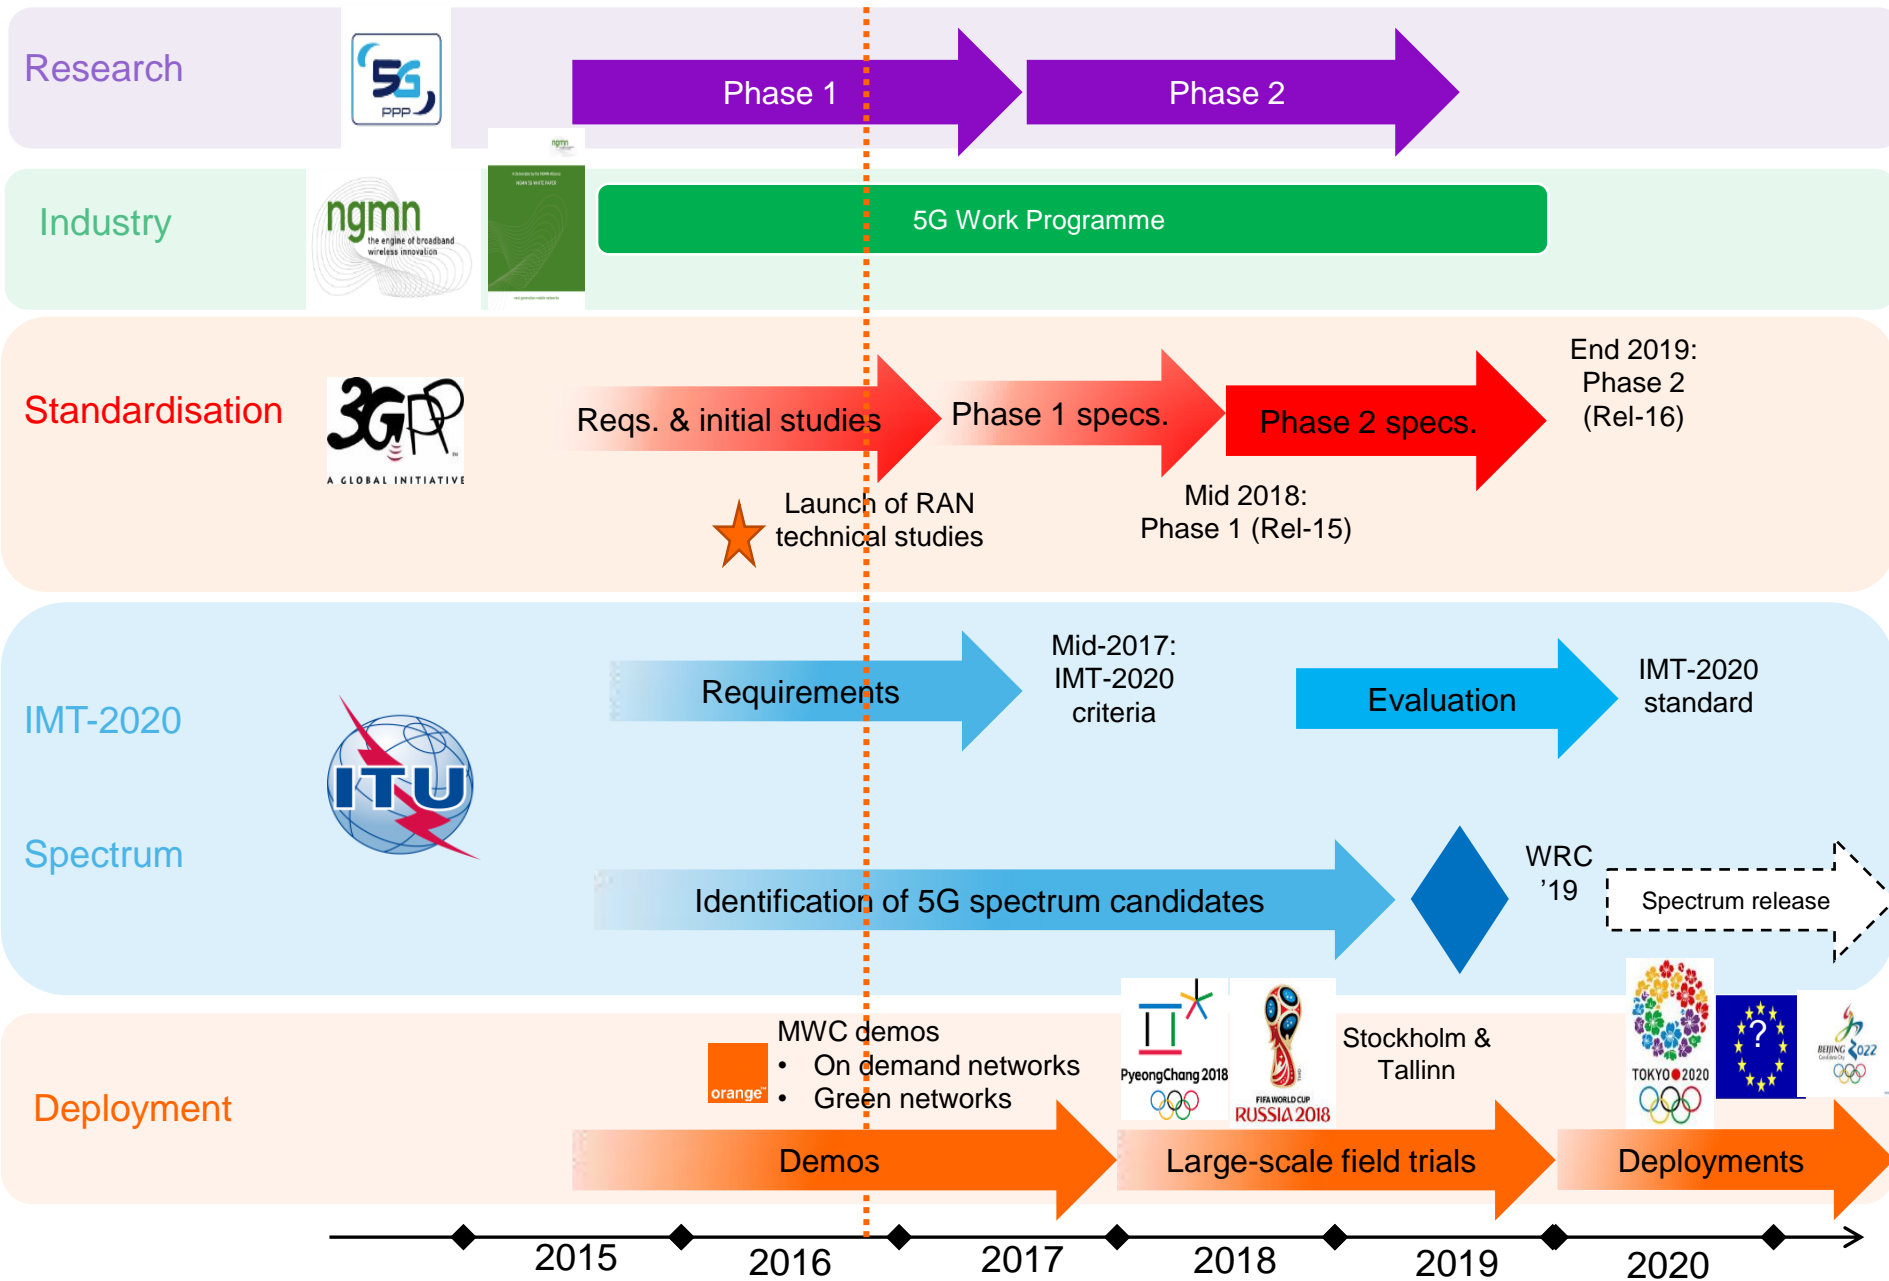

Management & Orchestration

(Slice, Network Function, SON...)

Software Defined Networking

5G : an ambitious timing

thank you
