TO-EURO-5G 2020

Uwe Herzog
Eurescom

Primary objectives of

- Facilitate the cross-project working groups and assist the production of 5G-PPP position papers.
- Capture and disseminate the news and achievements of the 5G-PPP
- Develop and maintain the 5G-PPP communities of interest
- Orchestrate and organise the major events for the 5G-PPP
- Provide and maintain the operational infrastructure for the 5G-PPP

Objectives

In collaboration with the **5G-PPP Projects**, the **5G-Infrastructure Association**, **NetWorld2020 ETP** and the relevant vertical sectors, represented by other ETPs, other PPPs and associations **TO-EURO-5G** will support the following:

High level objectives:

- to maintain and enhance the competitiveness of the European ICT industry, seeking European leadership in the 5g domain.
- to ensure that European society can enjoy the economic and societal benefits these future networks through promotion of uptake and stimulating adoption and use of 5G.

Program Level Objectives

- to ensure effective and efficient co-operation and integration between all projects of the 5G-PPP,
- to extend the project and programme level collaboration to other European Commission projects in H2020, the CELTIC Plus Eureka cluster, and related national initiatives to maximize the European momentum towards, and benefits from, the future 5G integrated, ubiquitous and ultra-high capacity networks.
- To facilitate respective activities (e.g. meetings, workshops etc.) and work together with the 5G-Infrastructure Association and the European Commission to create good international relations with peer global initiatives, to ensure recognition of the European developments and promote global interoperability of 5G solutions.

Project level Objectives:

- To maintain and improve a comprehensive communications and dissemination program emanating from project achievements and successes via a lively and continuously updated 5G-PPP.eu website and including various social media tools as appropriate.

To share a program level communications plan with all the 5G-PPP projects and produce annual reports on the program performance – the 5G Annual.
