Solution

#1 Add NPeer Mobile/Web Library to Your Application

#2 NPeer - Video Streaming CDN Starts to Work

#3 Users Load Video from Each Other

CDN

WebRTC

#1 Users receive better service  #2 Content providers lower bandwidth
Npeer CDN Benefits

Server Offloading

Publishers can reduce bandwith costs up to %96 with P2P delivery

Scalable CDN

CDN expands server capacity by more than 15x during live streaming events

Faster Streaming

User loads video stream faster and rebuffer less
